# Sapphire Rods & Ruby Rods - SP-26B

## Specifications

<b>Model</b>	SP-26B
<b>Outside Diameter</b>	.120/.130"
<b>Length</b>	1.70/1.80"
<b>Material</b>	Unpolished/Sapphire Rods

 Custom Options Available

### Description

Sapphire Rods are used in a wide range of applications. A sapphire rod can be made with all surfaces polished for optical and wear applications or with all surfaces fine grind (un-polished) to serve as an insulator. Sapphire Rods are available in a range of outer diameter and lengths. OD's as small as .0175". Request more info on sapphire rods, ruby rods, and other tube applications.

## Typical Applications

- Pumps
- Light Pipes
- Spacers
- Insulators
- Wear Applications

## NOT SEEING EXACTLY WHAT YOU NEED?

We at the Swiss Jewel Company specialize in creating a wide range of custom optical components and custom mechanical components including a variety of shapes - from internal holes and tapers to outer flanges, angles and surface finishes. Contact us and we will consult with you to create a custom component that meets all of your specifications.
